# The State Demographer's Office has a new face

- In March 2012, Susan Brower became the State Demographer, following Tom Gillaspy's retirement after 32 years in this role

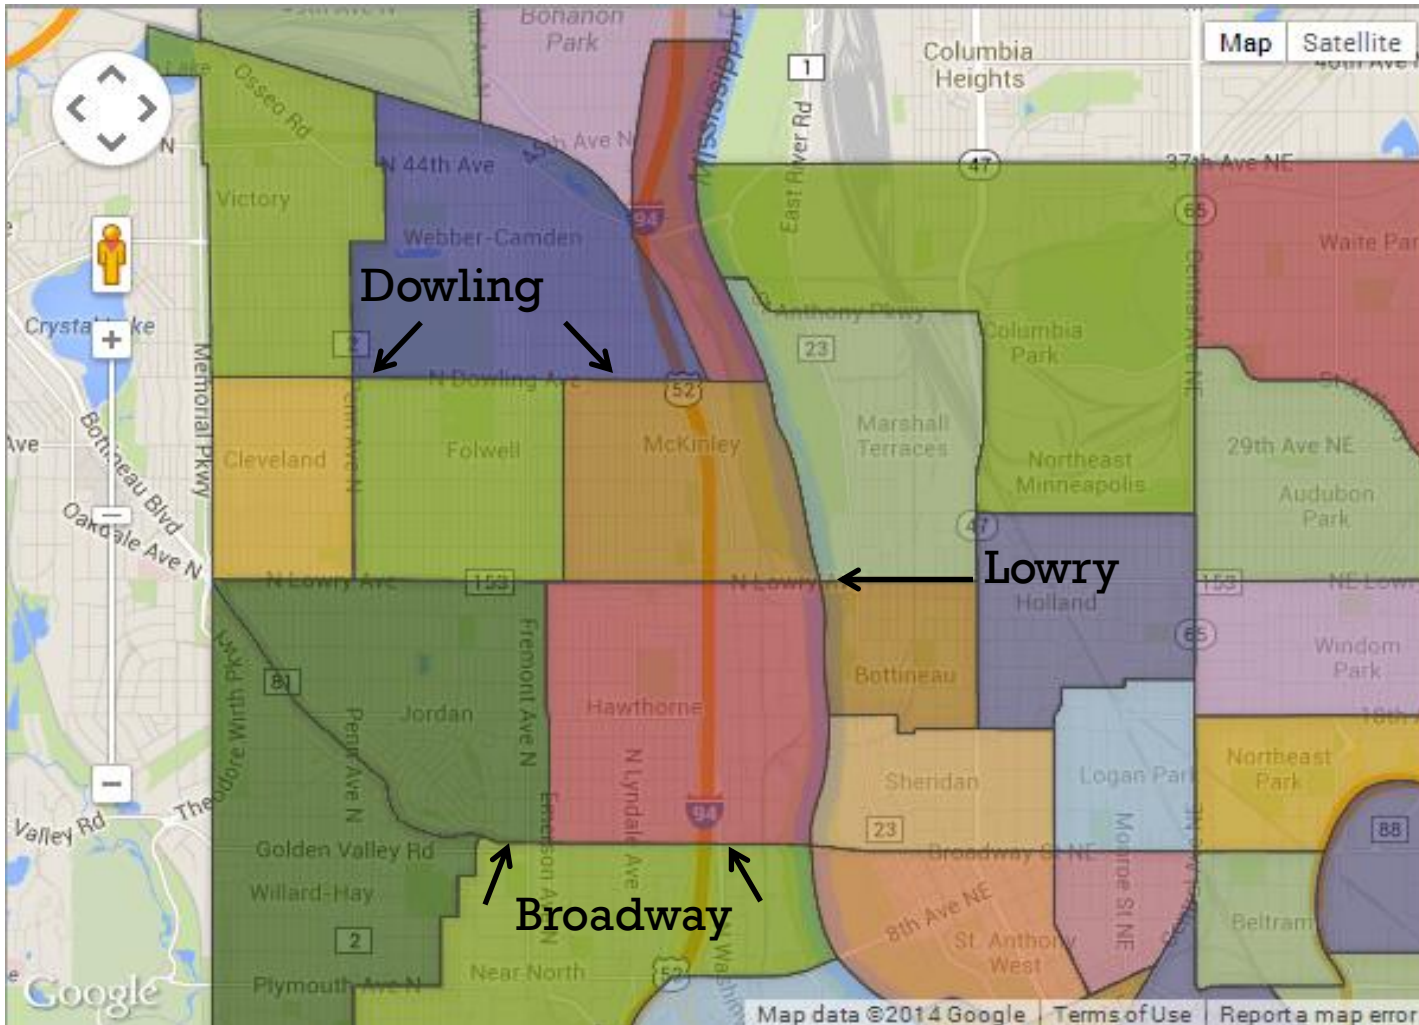

# What is the role of the MN State Demographic Center?

---

- Serve as a liaison to the Census Bureau and assist with the decennial census counts
- Create MN population estimates and projections
- Analyze, interpret and distribute data from the state, U.S. Census Bureau and other sources
- Offer data and technical assistance to legislators, all levels of government, organizations and citizens across the state
- Monitor trends and help MN to make data-informed decisions

The screenshot shows a web browser window with the address bar displaying [www.mncompass.org/twincities/neighborhoods](http://www.mncompass.org/twincities/neighborhoods). The browser's address bar also shows a list of bookmarks including Twitter, Ow.ly, Imported From IE, Data Sources, Job Stuff, PUMS, Open Data, Web Apps, Projects, and MN Data Opener. The website header features the "MINNESOTA COMPASS" logo with the tagline "... Measuring progress. Inspiring action." and navigation links for Regions, About, Trends, and Contact. Below the header is a dark navigation bar with the word "TOPICS" and a list of categories: Aging, Children & Youth, Civic Engagement, Demographics, Disparities, Early Childhood, Economy, Education, Environment, Health, Housing, Immigration, Public Safety, Transportation, and Workforce. A Google Custom Search bar is also present. The main content area is titled "TWIN CITIES" and includes a sidebar with links for "Region overview", "State Profile" (Minnesota), "Region Profile" (Twin Cities), "County Profiles" (Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, Washington), and "City Profiles". The main content area displays the heading "PROFILES MINNEAPOLIS-SAINT PAUL NEIGHBORHOODS" and a subheading "You are here: MN Compass > Twin Cities". Below this is a paragraph explaining that users can find at-a-glance trends and data by neighborhood, including population, housing, and employment. It also provides instructions on how to view or download a pdf of any profile, either by clicking on a section of the map or by choosing "View List" (above the map, right) to select a neighborhood by name. It notes that in Minneapolis, profiles are also available by community – groupings of several neighborhoods (map). Some data are unavailable by neighborhood, but may be found at the larger community level. A link to "Download data file with margins of error." is provided. At the bottom, there is a map of the Twin Cities area with a "View List" link and a "Map" button. The map shows major highways like I-94, I-35E, and I-10, and labels for various neighborhoods including Brooklyn Center, New Brighton, Arden Hills, Columbia Heights, and Vadnais Heights.
